

MEASUREMENT INSTRUCTIONS FOR COMPETITORS

DART 18 WORLD CHAMPIONSHIPS 2010

1. All boats will go through a strict measurement process at the 2010 Dart 18 World Championships at WPNSA, and will also be subjected to periodic checks both on and off the water during the Championship.
2. Scrutineering times will be as follows:
 - Saturday 21st August 09.00 – 19.00
 - Sunday 22nd August 08.00 – 18.00
3. Upon arrival, please collect your Scrutineering Form and Bow Numbers from the “Arrivals Officers” who will be receiving boats into the boat park during the above scrutineering times, and will be based in the adjacent marquee. Rig your boats and affix the Bow Numbers as instructed, before proceeding to be measured.
4. There will be a dedicated Measurement Area which will have a flag flying marked “Measurement” to clearly indicate where to take your boat. This area consists of a “queuing area” for those waiting to be scrutineered, a “boat measurement box”, a “sail measurement box”, and a “holding bay”.
5. Boats should be rigged in accordance with the Dart 18 Class Rules except the sails should be laid on the trampoline. Rudders must be in position.
6. When called forward by the IDA Measurers, please move your boat into the boat measurement box as quickly as possible.
7. Either the Helm or Crew must lay their sails out in the sail measurement box adjacent to the boat measurement box and stay with the sails during the measurement process.
8. Either the Helm or Crew must stay with the boat during the measurement process.
9. Boats that do not measure will have their Scrutineering Form returned to them and will be instructed to go to the “holding bay” where they will be on hold until any irregularities are corrected. Once these are corrected, boats will be called back into the measurement box as soon as possible.
10. Once your Scrutineering Form has been signed please leave the measurement area as quickly as possible to allow the next competitor to enter the area.
11. Competitors should then take their signed Scrutineering Form to the Registration Office, which is located in Room 3 off the indoor first floor balcony, above the WPNSA event hall.
12. If you need to contact the IDA Measurers during the Championships they can be contacted by phone or text on 07967 626 411.

Thank you for helping to protect the Dart 18 Production One Design – good sailing and good luck.

Kim and Sarah Furniss
